

July 28, 2019

Dear Friends,

Please accept my warmest greetings as you come together for Jillian's Angelic Dreams Concert.

The opioid epidemic touches every community across the U.S. and I am committed to taking action to address this public health crisis. That is why I introduced the Comprehensive Addiction Resources Emergency (CARE) Act, which would provide federal dollars to state and local governments so that everyone who needs addiction treatment can get it. Congress must act on this important issue to save lives, and we can honor the memory of Jillian, her family, and every victim of this terrible epidemic by staying in this fight.

I am grateful for The Jillian Foundation's impact on communities across Cape Cod and Martha's Vineyard. Thank you for all you do. Persist!

Sincerely,

A blue ink handwritten signature of Elizabeth Warren, written in a cursive style.
